## ARAD MDA EMERGENCY MEDICAL STATION

Arad MDA Station ambulance bays

The MDA Emergency Medical Station in Arad serves the residents of Arad as well as the large numbers of tourists and employees who work at Masada and the Dead Sea resorts. Arad has a population of 26,000 and it is estimated that this will more than double by 2020.

On a yearly basis, the Arad Station answers approximately 3,255 calls and dispatches ambulances for the following:

- 1,390 illnesses
- 100 women in labor
- 140 traffic accidents
- 10 work-related accidents
- 375 miscellaneous calls

The Mobile Intensive Care Units (MICU's) respond to:

- 1,000 illnesses
- 15 women in labor
- 80 traffic accidents
- 5 work-related accidents
- 140 miscellaneous calls

ARAD	Region: Negev
<b>Vehicles</b>	<b>No.</b>
MCRV	1
MICU	1
Standard/BLS	5
<b>Staff</b>	
Employees	8
Volunteers	59
Youth Volunteers	73

The closest medical facility is Soroka Hospital in Beersheva, 26 miles to the west.

MDA determined that the Station had serious problems with the electrical infrastructure and capacity, air conditioning, internal finishing, site development and lacked additional ambulance bays.

Due to the condition of the building, this project was deemed urgent and work has been completed on rewiring, internal partitioning, ceilings, new air-conditioning units, replacement of all electrical systems, new electrical switchboard, sanitary devices, roof insulation, replacement of all windows, new front and rear doors, gardening, roads, parking lot, flooring, enhanced sheltering, fencing and landscaping.

The outside of the station is named in memory of Frits and Rita Markus. Additional naming opportunities are available at the following levels. Donors' names will be inscribed prominently in the main lobby.

Dispatcher at Arad MDA Station

**Grand Donor** **\$400,000**  
 Naming opportunity outside of building is no longer available.
